CRISTEC, on-board energy

⚡ Our vocation

Founded in 1983, CRISTEC (standing for Creation, Innovation Scientifique et Technique, or Scientific and Technical Innovation and Creation) specialises in energy conversion.

CRISTEC offers expertise on an international scale via its range of standard products mainly for on-board applications.

CRISTEC belongs to the ENAG group and its success is built on its teams and technical means, whose expertise is widely recognised.

Thanks to our network of agents and distributors who are present in over 40 countries we can guarantee our clients reliable universal solutions for use in extreme environmental conditions.

⚡ Our clients

Sailing boats, motor and electric boats, barges, vehicles for the police and emergency services, for work and leisure uses, autonomous electrical installations for wind and solar power, etc. whenever the situation or energy management demands are particularly stringent.

From Europe to Asia, the number and diversity of CRISTEC's clients is proof of our success and represents an ongoing challenge to meet and anticipate their needs.

⚡ Products

Our automatic H.F. chargers, an innovative technology in which CRISTEC was the precursor, and all our products relating to battery charging meet the whole host of international standards and norms.

The design of our latest equipment benefits from unrivalled feedback on 100 000 HF chargers in use.

High-performance, compact and light, their ergonomic design means they are easy to install, quick to hook up and keep on functioning over time in perfect safety.

⚡ Means

Thanks to our R & D department backed up by specifically adapted testing facilities we can rapidly develop product ranges to meet technical specifications as well as assessing prototypes and preproduction models.

Our competitive positioning for standard CRISTEC models means that we have an international supply and subcontracting chain.

Our industrial organisation has earned ISO 9001 certification and is continually seeking to improve, with optimal customer satisfaction as our guiding principle.

⚡ Mission

CRISTEC energy conversion - putting our expertise and skills at the service of current and future clients to help them anticipate and find the solution to tomorrow's needs today.

Place your trust in us and incorporate all our on-board energy working at your sides!

- 
- ⚡ Battery chargers
 - ⚡ Sinewave inverters
 - ⚡ Shore-power units
 - ⚡ Voltage converters
 - ⚡ Battery isolators
 - ⚡ Displays - Monitoring systems
